SUMMARY

Dedicated web developer with expertise in Typescript, CSS, and HTML. Committed to using my knowledge of web technologies to build websites that are both aesthetically pleasing and easy to use. Persistently working to gain new talents and improve existing ones through practice. In the interest of contributing to your business and becoming a part of a motivated team with high standards.

EXPERIENCE

Web Developer

04/2021 - 09/2022

Pluxbox

Hilversum, NL

- Co-supervised a four member team with the goal of creating websites for radio stations all over Europe.
- Developed multiple challenging Front-End DOM structures, such as an Electronic Program Guide and a Radio Rundown that helped radio stations organise their workflow.
- Connected intricate systems with the logic of the expanding platform using Typescript, Node.js and APIs.
- Assisted in the development of the company's website, in the pursuit of engaging with more clients, by creating a client intake form and implementing cookies.

Intern Web Developer

10/2020 - 04/2021

Pluxbox

Hilversum, NL

- Gained professional traction with fundamental web development technologies such as HTML5, CSS3, and Typescript, becoming a valuable asset in the company
- Utilized the Scrum and Kanban Agile Frameworks to follow and assist the project management process.
- Aligned with the code management flow using Git which improved the overall team organisation
- Collaborated with project managers and the team to successfully deliver projects on time resulting in an increase in efficiency

EDUCATION

Computer Science

09/2015 - 09/2021

University of Crete

- Thesis Subject: "Mobile services for visualizing open data applied to data from the Bank of Greece and Heraklion Smart City"
- Team leader in team assignment for creating a web conference website across three different platforms
- Relevant modules: Web Programming, UI/UX design, and Object-Oriented Programming

STRENGTHS

Cooperation & Communication

Working with a professional team for two years, as well as four years of team projects in university, equipped me with a solid basis for teamwork.

Logical Thinking

Systematic approach to problem-solving that includes identifying the root cause, developing a step-by-step plan, and implementing effective strategies

Decision making

Utilized analytical skills and gathered relevant information to make informed decisions. Ensured that the team's decisions aligned with the overall goals and objectives of the project.

Versatility

Highly adaptable in dynamic environments. Interested in learning new things and applying knowledge towards the completion of tasks.

SKILLS

React.js • Redux • HTML • Typescript •

CSS • Node.js • MongoDB • Git •

Javascript • Webpack • Google OAuth •

API • Express • Figma
